

Ehsan Yaqoob

Mobile Developer (iOS / Flutter)

+92-312-651-4491 | ehsanyaqoob07@gmail.com | linkedin.com/in/ehsany | github.com/ehsanyaqoob | ehsanyaqoob.vercel.app/

Mobile Developer with 3+ years of experience designing, developing, and deploying production mobile applications across Flutter and native iOS. Shipped apps to both the App Store and Play Store - from a government enforcement system active with 500+ field users to independently built consumer products. Specializes in Clean Architecture, offline-first systems, state management (Riverpod, Bloc, GetX), REST APIs, Firebase, Supabase, and CI/CD via Fastlane and GitHub Actions.

EDUCATION

PMAS Arid Agriculture University · B.S. in Computer Science · 2025

Coursework: Data Structures & Algorithms, Software Engineering, Mobile Application Development, Human Computer Interaction, Computer Networks, Operating Systems, AI

TECHNICAL SKILLS

Programming/Core: Dart, Swift

Frameworks/Tools: Flutter, SwiftUI, SwiftData, Supabase, Hive, Firebase, REST APIs, Clean Architecture, Riverpod, Bloc, GetX, Git, Fastlane, GitHub Actions, Shorebird

EXPERIENCE

National Police Foundation

Islamabad, Pakistan

Mobile Developer (iOS & Flutter) — Flutter, GetX, Firebase, REST APIs

Apr 2024 – Present

- Built and maintained Digital Sergeant E-Challan system, deployed to 500+ Islamabad Traffic Police officers in live production.
- Integrated ML Kit OCR for real-time license plate scanning, REST APIs for live violation reporting and data sync.
- Managed direct-to-device OTA updates via Shorebird, bypassing Play Store for faster field deployments.
- Maintained CI/CD pipeline using GitHub Actions and Fastlane for automated builds and releases.

Tech Solutions

Islamabad, Pakistan

Mobile Developer — Flutter, GetX, Fastlane

Dec 2023 – Mar 2024

- Shipped two client Flutter apps - Funica (e-commerce) and E-Wallet - from development through production release.
- Developed cart, checkout, payment, and transaction flows with reusable components, clean state management.
- Drove end-to-end release pipeline via Fastlane, automating builds and store submissions across both apps.

Logixsy Tech

Islamabad, Pakistan

Flutter Developer — Dart, Bloc, Provider, Firebase

Jan 2023 – Oct 2023

- Built and maintained production Flutter apps serving thousands of active users, Bloc and Provider for state management.
- Designed Firebase-backed real-time data architecture for live sync across multiple devices and user sessions.
- Drove performance optimization across launch time, memory, and rendering - resolved critical bottlenecks in production.

PROJECTS

Niyyah — Swift, SwiftUI, SwiftData, Supabase

2026

- Native iOS Salah tracker — GPS-based prayer times, daily streak tracking, monthly heatmap, offline-first with Supabase sync.
- Designed, developed, and shipped end-to-end to the Apple App Store as a solo indie project.

Mizan — Flutter, Riverpod, Hive, Supabase

2026

- Freelancer finance tracker — PKR/USD conversion, FBR tax calculation, PDF export, offline-first with Supabase cloud sync.
- Designed, developed, and shipped end-to-end to the Apple App Store and Play Store as a solo indie project.

Digital Sergeant — Flutter, GetX, ML Kit OCR, Firebase, REST APIs

2024

- Government-grade E-Challan enforcement system — real-time license plate scanning, live violation reporting, offline-first with Firebase sync.
- Deployed to Islamabad Traffic Police officers in live production, maintained end-to-end as sole mobile developer.

Padel App — Flutter, Provider, Google Maps

Dec 2025 – Present

- Real-time court booking platform — slot availability, in-app payments, Google Maps integration, role-based club owner.
- In active development with custom backend, targeting production release on Google Play Store.
